

Flooring name: Sikafloor® DecoCem CS-44
Manufacturer Address: Sika Services AG
 Tüffenwies 16
 CH-8048 Zürich
<http://www.sika.com>

Material description: decorative, low VOC emissions, hybrid cementitious flooring system.

Properties: pigmented, hybrid, cementitious flooring system. Applied seamlessly with a matt finish, it provides a decorative medium-wear floor for internal applications. Containing recycled material and fulfilling low-VOC-emission standards, it contributes to sustainable buildings schemes.

Uses: for use in dry areas in indoor applications in residential and homes, hospitality and retail, public buildings.

Initial installation cleaning

Scrub with a red pad and wet vacuum soiled solution. Rinse with clean water and wet vacuum. Let dry thoroughly. Product: TASKI Jontec 300, ♦ 1-3%.

The system choice depends on the size of the surface, the usage and the initial treatment.
